

DF322 DuraFlex Thermal Transfer Ribbon

Print Durability & Substrate Flexibility

DF322 DuraFlex is an economical solution to your general purpose printing needs. DF322 is highly durable on a wide range of substrates means that you can have one ribbon for multiple jobs without compromising print quality. And it features Dynic's proprietary backcoat to protect your printhead and prevent static build-up.

Applications Include:

- General purpose labeling
- Shipping, box, & production control
- Hang tags
- Ingredient labels
- Print & apply
- RFID
- Inventory labels
- Preprinted tag & label stocks
- Retail labels
- Shelf & bin labels
- Compliance labeling

Compatible Substrates:

- Coated & Synthetic Papers
- Synthetics (Polypropylene & Polyester)
- PET Films
