

SIRIUS

HL49 Standard Resin Thermal Transfer Ribbon

General Purpose Resin

HL49 is a general purpose resin that can be used in flathead printers. It provides resistance to scratching, smearing, and engine oil. HL49 is a versatile resin ribbon that provides a good print solution for a wide variety of applications and substrates.

Applications Include:

- Asset tracking
- Electronics labeling
- Hazardous materials labeling
- Compliance labeling
- Name plate printing
- Print & apply
- Tamper evident labeling
- Other industrial labeling

Compatible Substrates:

- Synthetic Papers
- Synthetic Labels (Polypropylene & Polyester)
- PET Films
