

DF322 DuraFlex Thermal Transfer Ribbon

Print Durability & Substrate Flexibility

DF322 DuraFlex is an economical solution to your general purpose printing needs. DF322 is highly durable on a wide range of substrates which means that you can have one ribbon for a multitude of jobs without compromising print quality. And it features Dynic's proprietary backcoat to protect your printhead and prevent static build-up.

DF322 is ideal for food applications, including:

- Ingredient labels
- Inventory labels
- Expiration dates & lot codes
- Snack foods, fresh fruit & produce, meats & cheeses, condiments, and beverages

Compatible Substrates:

- Coated & Synthetic Papers
- BOPP
- Synthetics (Polypropylene & Polyester)
- PET Films

This product complies with:

- RoHS (Restriction of Hazardous Substances)
- Direct Food Contact (LFGB - German code regarding Foodstuffs, Consumer Goods, and Animal Feed)
- Indirect Food Contact (FDA 21 CFR 175.300)
