

SIRIUS

HL35 Resin Thermal Transfer Ribbon *Resin for Fabric Labels*

HL35 is a versatile resin that can be used on both textile labels and in traditional TTR applications. It provides good resistance to heat, scratching, and chemicals. It is ideally suited to printing on Cetus® textile labels and will withstand washing, ironing, and some dry cleaning.

Applications Include:

- Garment care labels
- Pharmaceutical and medical
- Textiles
- Food labeling

Compatible Substrates:

- Coated & Synthetic Papers
- Cetus® Textile Labels
- Satins
- Plastic Films

Approvals & Certifications:

- RoHS (Restriction of Hazardous Substances)
- Direct Food Contact (LFGB - German code regarding Foodstuffs, Consumer Goods, and Animal Feed, 1935/2004/EC)
- Indirect Food Contact (FDA 21 CFR 175.300)
- Drug Master File (FDA, pharmaceutical and medical applications)
