

S2® Stellar Wax Thermal Transfer Ribbon

Print Quality & Substrate Flexibility

S2® Stellar Wax is the industry standard when it comes to wax ribbons. S2 has superior print quality on the widest range of label substrates. It prints at temperatures 20% below other ribbons and features Dynic's proprietary backcoat to protect your printhead and prevent static build-up. And it's FDA-listed and food-safe.

Applications Include:

- General purpose labeling
- Shipping, box & production control
- Ingredient labels
- Compliance labeling
- Pharmaceutical, medical & healthcare labeling
- Inventory labels
- Retail labels
- Print & apply
- RFID

Compatible Substrates:

- Uncoated, Coated & Synthetic Papers
- Synthetics (Polypropylene & Polyester)
